SF Admin Basics Challenge (Permission Sets, OWD, Sharing Rules & Role Hierarchy)

UC #09 : Ensure OWD data security is set appropriately so that only record owners and users higher in the role hierarchy can see the record

UC #10: Enable changes in the system so that records created by “**Dilbert S**” is **visible but read only** for “**Rashmi H**”

UC #11: Enable changes in the system so that records created by “**Rajesh B**” is **visible but read only** for “**Rashmi H**”

UC #12: Enable changes in the system so that “**Rajesh B**” can **see all records** in appraisal form object

UC #13: Share at least one of the records created by “**Gopi C**” to “**Dilbert S**” . Ensure record is shown to Dilbert in read only mode

Upload your final results here:- Will be closed by Dec 26, 2021 6 P.M IST

<TBS>

Points to remember:

1. Ensure you are uploading clear screen shots
2. Each screenshot from org should have org url clearly visible else your output will not be considered for evaluation and will be marked as incomplete in the final report
3. Ensure you have completed all the changes and upload list view screen shot with data. Empty listview will not be considered for evaluation and will be marked as incomplete in the final report

If any one of the team members did not upload code challenge result , entire team will be marked as “Incomplete”
